NUTSHELL Paint & Varnish Remover

Revision: 1.3 2010-03-30

- Product** NUTSHELL Paint & Varnish Remover is a water based product with an innovative formulation that is highly effective at removing all types of paint, woodstains and varnish safely, including lead based paints.
It will even remove gloss or masonry paint from brick.
It has a minimal VOC content making it a safer alternative to conventional paint and varnish strippers and it really works. No ventilation is required.
- Coverage** A 900ml tin will cover approximately 4-6 sq. metres depending on coating and thickness.
- Areas of use** Suitable for use on wood, metal, stone, brick, plaster, marble, GRP and UPVC. The gel-like consistency allows it to cling to surfaces so that it can even be used upside down.
It can remove up to 5 layers of paint in one application.
- Size** Available in 450ml and 900ml tins.
- Application** Apply liberally with a brush. Remove after required time with a scraper, or ideally a stainless steel scouring ball, before the gel dries. Dried gel can be reactivated with water. Do not use steel wire wool as this can cause rust to penetrate into wooden surfaces.
If required, apply a further liberal coat and repeat until a bare surface is visible. Recommended stripping times for various finishes can be found on the product label.
Wash off any residue and neutralise the product with water or a damp cloth. Any remaining small areas of finish can be removed with sandpaper once the surface is completely dry.
- Storage & Handling** Store in a cool, frost free place. Ensure the lid is kept firmly closed.
- Safety**
- As with all paint products, store well away from children and pets.
 - Avoid skin and eye contact. Wash eyes immediately with plenty of water if contact should occur.
 - Ensure good ventilation.
 - Close lid firmly after use.
 - Store and use away from heat and flame.
 - Do not eat in the vicinity of work.
 - Wash hands after use.

The information given in this Technical Information Sheet and any technical advice - whether verbal, in writing or by way of trials - is for guidance and is given in good faith but without warranty, since skill of application and site conditions are beyond our control.
